FOR PRESIDENT,
BENJAMIN HARRISON
OF INDIANA.

FOR VICE-PRESIDENT
LEVI P. MORTON,
OF NEW YORK

"BARTINE OPPOSED POWNING."

Under the above heading the Virginia Chronicle, of last evening, says:

Bartine's treachery to Powning when the latter was a candidate for Congress should not be forgotten by the friends and countrymen of Mr. Powning at the coming election. They should show this Dolley Varden candidate that they have good memories and keen blades. Mr. Powning's Cornish name and ancestry did not suit the aesthetic taste of Mr. Bartine, and he not only bolted the nomination and personally denounced Mr. Powning, but went to the trouble of writing letters to his Republican friends throughout the State beseeching them to scratch Powning. Turn about is fair play and every friend of C. C. Powning in this State (and he has many of them) should scratch Bartine as he and his friends did Powning four years ago—and vote for Geo. W. Cassidy, the ablest representative Nevada ever had in Congress.

Every friend of C. C. Powning in this State should vote for Bartine, the Republican nominee, who is fully as well qualified to represent Nevada in Congress as his opponent, and whose selection means that this State is true to itself, and that the principle of Protection is far above the personality of any individual. Nevada should be represented in the lower House by a Republican, and whatever political mistake Mr. Bartine may have made in the past, it should be remembered for him now that he is the nominee of the Republican party, and that he was a gallant Union soldier, and having fought for his country on the field of battle in time of war, he should now be given an opportunity to fight for it in Congress in time of peace.

Republican politicians hope that if his Majesty's representative in Washington is to be recalled, orders will be given him quickly. Had the President promptly returned Lord Sackville his passports when his Los Angeles correspondence was made public, it might have partially offset the Minister's blunder, but after the lapse of a week for the British Government to come to the relief of the Administration by recalling Lord Sackville, the Republicans think would simply convince the people that Great Britain was willing to do anything in its power to repair the injury to the Democratic cause worked by the Minister's letter.

W. H. Mills, Land Agent of the Central Pacific Railroad, has placed \$5,000 in the bank of D. O. Mills & Co., at Sacramento, to be wagered on the election. He bets that Harrison will be elected. If there are no takers the money will be deposited in the Crocker-Woolworth Bank, in San Francisco, to be covered there. Mr. Mills has recently returned from the East, where he investigated the condition of affairs. He will now back his judgment with \$5,000. The money is to be taken in one bet on the general result.

The testimony regarding the personal character of General Harrison is simply that which is borne by all who know him. He stands out before the people of the United States to-day, unassailed because unassailable. The only effort of his enemies to depreciate him is the charge that he wears kid gloves. If he does, it is certainly not to hide stained hands, for no man has dared to hint that General Harrison's hands have ever been stained by any corrupt act or by any immorality.

Suppose the protective voter sits down a moment and considers the following: Great Britain has ruined every country in the world which she has persuaded or forced into free trade. England, indeed, is the commercial pirate of the world. She is now straining her utmost to rob the United States of its industries and get control of our market. If she succeeds, every working-man and working-woman in this country will be brought to comparative poverty.

The Knights of Labor have the motto: "An injury to one is the concern of all." It is just this fact in a Republic that makes it the general concern that a few shall not follow blind prejudice and vote upon American workmen a policy that will so reduce them to the level of European pauper labor.

WASHINGTON TERRITORY.

A Large Increase in Population and Taxable Values.

WASHINGTON, Oct. 29.—The annual report of Governor Semple, of Washington Territory was received at the Interior Department to-day. It is very large and comprehensive, but he says he has no expense account. He had to rely on the public-spirited citizens. The population is 167,982, an increase of about 24,000 the past year. The taxable property is valued at \$84,621,182, being an increase of \$65,000,000 in ten years. The financial condition of the Territory is most prosperous, and although the Penitentiary and other buildings have been erected the past year the Treasury is but a little behind. Nearly 600,000 acres of land have been entered by settlers during the past year. During the year individual owners and railroads have sold over 1,000,000 acres and much more would have been settled had it been surveyed. There are 1,197 miles of railroad now there, and more in the course of construction. All the industries from cattle raising to mining are in a prosperous state and employes get good wages. The condition of the various Indian tribes are reported good and the majority are fast becoming civilized.

ON THE PLAINS.

Farmers Leaving Scott County, Kan., Almost En Masse.

WICHITA, Oct. 28th.—C. R. Nicholson is in the city from Scott county, Kan., where he has been until recently engaged in the banking business. Mr. Nicholson tells a discouraging story of affairs in the western portion of the State. Whole counties are being depopulated, the people either going to Colorado or back East. For three years the people have raised no crops. These counties comprise what the old frontiersmen called the "great plains," and are absolutely good for nothing except stock raising. The people have been compelled to leave or starve. In Scott county there were 4,000 people two years ago. To-day there are not more than 450. Mr. Nicholson had to close his bank on account of the depopulation.

Utilizing The Letter.

New York, Oct. 29.—Sackville's letter has undoubtedly achieved a purpose that was impossible by other means, and the Democratic leaders appreciate this to their sorrow. Tens of thousands of copies of the English Lord's letter, with a picture of the British flag on the other side have been distributed through the city, and are being forwarded to all parts of the country. The Democrats are endeavoring to neutralize the effect of this as best they can, but thus far they have discovered nothing that will avail. The visit of Hon. Pat Collins and John Boyle O'Reilly and their star-chamber interview with the President on Saturday on the subject of Lord Sackville's recall, demonstrates the importance attached to this issue by the Irish Democrats.

Providing Against Democratic Frauds.

New York, Oct. 29.—At the expense of \$50,000 the Republican National Committee has prepared an elaborate and complete directory of the registered voters of this city. It is expected that fraudulent voting will be made nearly or quite impossible. An army of special detectives will be supplied with these volumes and they will at once scour the city to verify the registry lists and also guard the polls on election day. John T. Davenport declares that Cleveland was elected by 10,000 illegal votes cast in this city.

Sackville Asked to Resign.

LONDON, Oct. 29.—This afternoon Salisbury sent a cipher despatch to Lord Sackville suggesting to the Peerage that increased private responsibilities would be sufficient excuse for resigning his office at Washington. It is believed Sackville will accept this chance, otherwise a recall is certain and he will never have another diplomatic mission.

English Comment.

LONDON, Oct. 20.—The consensus of press opinion in this city is that Lord Sackville has done nothing to feel ashamed of an honest human being, but he has gravely blundered as a diplomat, and it would be better for him to resign and avoid further unpleasantness.

The people have no particular interest in knowing who wrote the Marchioness letter. They know the answer and its writer, which is all that is to the point.

Miss Alice D. Stockton, twenty-six years old, has been nominated for Governor of Massachusetts by the Equal Rights party.

Postmaster-General Dickinson, in a speech at Grand Rapids, Mich., Saturday, made a violent attack on Blaine.

REPUBLICAN RECRUITS.

The Banner of Protection at the Top.

W. H. Bullen, of Marietta, Pa., has been a Prohibitionist heretofore, but has seen the folly of his ways and this year he is marching to Republican music.

Bernhard Derney and his son Hugh, of Indianapolis, are among the recent converts from the Democracy, leaving that party on the sole issue of protection.

S. A. McClain, of Port Royal, Pa., says: "I have been a Democrat heretofore. I am going to vote the full Republican ticket this Fall, as I am in favor of protection to the American people."

The Grand Army Post in Oneonta, N. Y., will give Harrison sixteen Democratic votes, and the village itself will give him 250 plurality. The Democratic managers concede 200. In 1884 Blaine had fifty.

G. L. Calk, of Pittsburg, has always been a Democrat, but says that this year he will vote the National Republican ticket and do all in his power for the same. In this case the Republicans take the cake.

William Zarover, of Reading, Pa., says: "I have always voted with the Democratic party heretofore, but through their stupidity and inconsistency in regard to the tariff I shall in the future adhere to the Republican party and its principles."

J. De Conseroy, of Yardley, Bucks county, Pa., writes: "I have voted a straight Democratic ticket thirty-five years, but after reading the tariff message, the Mills bill, etc., I resolved to identify myself with the Republican party, and will vote the Republican National ticket this Fall."

Christopher H. O'Brien, of Indianapolis, was a Captain in the Thirty-fifth (Irish) Indiana Regiment, a good soldier, and badly wounded at the battle of Kenesaw Mountain. He had served in the City Council as a Democratic member from the Fifteenth Ward. This year he is enthusiastic for the Republican National candidates.

Patrick A. Ward, of Indianapolis, has for forty years been publicly and persistently identified with Irish National movements, contributing effectively with both purse and pen. Four years ago he was the Democratic Committeeman of the ward in which Gen. Harrison lives. This year he is a hearty supporter of the Republican candidates and platform.

Dr. L. A. Squire, of Poyneite, Wis., is giving his support to Harrison and Morton, which is one of the most significant incidents of the campaign. Few men are better known in that section of the State than Dr. Squire. He has been President of the County Agricultural Society, Chairman of the Democratic County Committee, and is a physician of large practice, as well as an extensive farmer.

Gen. Stephen A. Bronson, of Big Rapids, Mich., was the Democratic candidate for Congress from the Ninth District six years ago. He ran against Gen. Cutcheon, of Manistee, the present incumbent, and the Republican nominee for re-election. Gen. Bronson is a Republican now. He is President of the Veteran Voters' Harrison Club. At a recent meeting he introduced General Cutcheon, the speaker, as a man whom he earnestly supports for re-election.

Thomas F. Ryan, who has had much to do with the organization of the Irish Republican Club of Indianapolis, is a life-long Democrat, and has been a candidate for County Clerk upon that ticket. He is perhaps the best known and most popular Irishman in Indiana, and was a staunch war Democrat, assisting his brother, the late brilliant and talented Lieut. Col. Dick Ryan, to organize the Thirty-fifth or Irish Regiment of the State. "Tom" Ryan has a wide acquaintance, and is respected by every one.

Mr. Brainerd, ex-member of the Illinois Railroad and Warehouse Commission, has just returned from Pittsburg, seventeen miles from Indianapolis. Cleveland's majority in the town, he said, was forty-one. A canvass has been made, and the town now stands for Harrison by a majority of fourteen. One man was still in doubt, but the Republicans had hopes of him. Mr. Brainerd said that the talk of the Democrats to the effect that the Republicans were going to colonize negro voters from the South was like the cry of the poker-sharp who had a fine hand under the table, and when his opponent stole the cards the sharper cried out, "Stop the game; there's cheating going on." If the Republicans got ahead of the Democrats in Indiana in ways that were dark they would have to get up early in the morning—a good while before sunrise.

Not a Part of the Inscription.

"The deceased, if I remember rightly," said the tombstone agent in a respectful, differential manner, "was born in St. Louis."

"He was, sir," replied the Kansas City widow, "but (hastily) we don't want that put in the inscription."

Mr. Blaine addressed an immense Republican gathering at Newark, N. J., Saturday night.

General B. F. Butler has left Lowell, Mass., for Michigan, to stamp the State for Harrison.

Orders for Christmas trees are already being received in Maine.

A Prohibition mass meeting will be held at the Nevada Theater on Wednesday evening, Oct. 31st, at 7:30 p. m. Discussion of the great question by Rev. E. W. Van Deventer and other eminent speakers. Everybody come.

Senator Williams, of Empire, Bob Loggins, of Carson, Cashier Hofer, of Carson, Geo. W. Baker, of Eureka, and Dr. Patterson, were guests at the Jones banquet Monday evening, and unanimously agreed that Reno did things up very brown.

Reno, the most inviting town in the State of Nevada, contains a population of 5,000, is situated on the Truckee river, in the beautiful Truckee Meadows, at an altitude of 4,507 feet above tide water, and has a most charming climate. Located on the line of the Central Pacific Railroad, 244 miles from San Francisco, it is the terminus of the Nevada & California Railroad and the Virginia & Truckee Railroad, being the base of supplies and the shipping point for the largest agricultural region in the State. The school system is the best in the State, including the State University, Episcopal School for Girls, Mount St. Mary's Academy, one large brick Public School building costing \$25,000, and several primary school buildings, employing about twenty teachers. The McKiesick Opera House, a fine brick, was built in 1887 at a cost of \$30,000, and has a seating capacity of 1,000. Reno has two flouring mills, two banks, two daily and weekly papers, gas, water and electric light works. Voting population registered, 156.

DEATH OF IRS JOHNSTON.—Isaac P. Johnston died Monday night, and will be buried this afternoon. He was a native of England, and nearly 60 years of age. His death was caused by kidney troubles. Ike, as he was called by all his friends, came to this country in 1859 and located at Galena, in this county, but for the past seventeen years has been farming at Glendale. He was a good square man, and his death will cause regret to all who knew him. He was conscious to the last, knew that he must die, said that it was hard, but that he guessed he would have to stand it, but hoped he might live to cast a straight Republican ballot once more. He made his will Sunday, and left his property to his wife and children.

Secretary Bayard has notified Minister Sackville West that he will no longer be officially recognized by the State Department.

THE AMENDMENTS.

About Those the People are to Vote Upon.

A correspondent of the Carson Tribune disproves the assertion of the Carson Appeal that the Amendments to be voted upon have not been properly advertised and are therefore not before the people. This correspondent says we have apt illustration of what is necessary to a compliance with the above Constitutional requirement in the proposed amendments now being published, by authority, in the Territorial Enterprise. Those amendments were proposed in the Senate and Assembly, during the last session of the Legislature for 1887; they were then "agreed to by a majority of all the members elected to each of the two Houses;" and then "entered on their respective journals, with the yeas and nays taken thereon, and referred to the Legislature then next to be chosen;" and they are now being "published for three months next preceding the time" of electing the next Legislature.

This is all, and the only "publication" of proposed amendments required by the Constitution.

Now, if those "proposed amendments," so as aforesaid "referred to the Legislature then next to be chosen," or, the Legislature to meet in January, 1889, "shall be agreed to by a majority of all the members elected to each House, then it shall be the duty of the Legislature to submit such proposed amendments to the people in such manner and at such time as the Legislature shall prescribe;" and the Legislature has "prescribed" by the Act of 1887, statutes of that year, page 122, the 3d section of which reads as follows:

"The several Boards of County Commissioners in this State, before the next general election after final agreement by the Legislature to any proposed amendments to the Constitution, shall, in their proclamation, order that there be printed upon the ballots: Amendment No.—'Yes'; or Amendment No.—'No.' And section 4th of the same Act provides that the vote on the amendment to the Constitution shall be canvassed and returned in the same manner as is or may be provided by law for the canvass and return of votes for elective officers."

These proposed amendments were published in 1886, and are not required to be published again before being voted upon.

The words "when any proposed amendments are pending," at the termination of the 1st session of the Act, refer only to such proposed amendments as have been proposed in, and agreed to, by one Legislature and by it "referred to the Legislature then next to be chosen."

The Constitution does not require the amendments to be voted upon this year, to be published, nor does the Act of 1887 so require.

"Dickens Had One Trick."

Remarkd the professor, in a discussion of favorite authors, "which always struck me as an oddity. I mean his habit of pinning some distinctive word or phrase on a character, which must be uttered on all occasions. Now people in real life don't iterate like parrots. At least, I know of only one person who is liable to such criticism—Young Bowden, my neighbor. The picture of health isn't he? Ruddy cheeks, sparkling eyes, ringing voice. Well, his pet phrase, which I've heard him repeat to perhaps a score of people, suffering from coughs and weak lungs, is, 'Take Pierce's Golden Medical Discovery.' No wonder, either, for it saved him from a consumptive's grave."

Five hundred dollars reward offered by the proprietors of Dr. Sage's Catarrh Remedy for an incurable case.

Harrison and Morton believe in honoring the soldier, and in protecting his helpless widow and orphans. They believe in the Stars and Stripes as the sole emblem of a united country; and their administration while kindly to all, would not install ex-Rebels in high places in the Government, nor countenance crimes against the ballot. If this policy is wise, vote to restore it in the National Administration.

Harrison is a clean, pure, true man. So is Morton. Not a breath of scandal has touched or can touch the character of either. If moral integrity in all the relations of life is an excellent thing in the President and Vice-President of a Christian nation, elect these men for the sake of their example.

In Bath, New York, last Monday, a splendid Harrison and Morton pole was raised wholly by protection Democrats, who represent a large element in Steuben county dyed-in-the-wool Democrats, but who will this year vote for Harrison as a friend of the soldier and of American labor.

From every section of the country come loud complaints about the wretched mail service. The best mail service the country ever had was under Republican rule. Isn't it time to return to the old method?

LOG CABIN LOGIC.

Brawn and Brain!
The powerful engine, with its wonderful propelling power, coupled to the long train full freighted with the richest fabrics of the intellect, can stay the progress of this mighty force, when once under full steam along life's highway?

The American with brawn and brain does not see the necessity for titles of nobility, does not care for elevation by descent, he can reach out and pluck the stars.

But with brawn or brain impaired a man is badly handicapped in the mad race for success which is the marked characteristic of the present age.

The physical system is a most intricate piece of machinery. It ought to be kept well regulated, so that it will work harmoniously in all its parts, then it is capable of an immense amount of work.

It is said that a watch, if expected to keep perfect time, must be wound daily. It will not keep good time unless it "runs regular." More men break down because they don't "run regular" than from any other reason.

It is claimed by physicians that few men are killed by hard work. It is the irregularities of modern social life that the high death rate is due. Men burn their candle at both ends, then wonder why it burns out so quickly.

The main thing in keeping the human machine in good working order is to keep the regulator all right. "The blood is the life," and sound health is assured so long as the blood flows through the veins a limpid stream of purity.

Regulate the regulator with Warner's Log Cabin Sarsaparilla, the old-fashioned blood purifier, prepared after the best formula in use by our ancestors in good old Log Cabin days, and with the vigor of brawn and brain which must ensue, in your life's lexicon you will find no such word as fail.

General Hawley on General Harrison.

General "Joe" Hawley, United States Senator from Connecticut, thus gives his idea of the kind of man General Harrison is:

For six years I have been in close contact with Benjamin Harrison, discussing in the national Senate a great variety of affairs. You learn all about a man under such circumstances. He is a strong man, a clear thinker, powerful in argument and without a flaw in his character. He was a brilliant soldier and a very able lawyer. There is no weak spot in his armor. He has been making speeches nearly every day since he was nominated. I do not know the man whom I would have trusted to make so many speeches in his own campaign without doing any harm. You notice that a certain other candidate keeps his mouth shut tight! But Harrison has not slipped once by so much as a word. He has made a number of phrases that will stay, like that in relation to the tendency of the Mills bill—"It is not the length of the step, but the direction." He has shown himself to be a greater man than his friends believed him to be. I am confident as President of the United States he will more than satisfy all expectations.

A Luxury and Necessity

For rich and poor who wish to enjoy good health, and who do not wish to resort to bitter, nauseous liver medicines and cathartics, is the concentrated California liquid fruit remedy, Syrup of Aps. Sold by Wm. Pinniger, Reno.

A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the Throat and Lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing Consumption and to the head, causing Catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may cost you your life. As soon as you feel that something is wrong with your Throat, Lungs or Nostrils, obtain a bottle of Boche's German Syrup. It will give you immediate relief.

Knew It Would Be Needed.

"I would like a little money this morning, John," said the wife, who was about to start down-town. "I need a few chairs for the dining-room."

"All right, Maria," said the husband, looking up from his paper. "Here's \$10."

"At auction? Hold on a moment, Maria. Here's \$10 more."

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. PLATFORM AND RESOLUTIONS.

The Republicans of the State of Nevada in convention assembled again express their loyalty to the principles of the Republican party, which have made the country so great and prosperous during the last quarter of a century.

Resolved, That the question of a sufficient supply of a circulating medium to maintain a permanent range of the price of labor and property is the most important political question awaiting solution by the American people.

Resolved, That a diminishing quantity of money reduces the price of labor and property, increases the obligation of contract, enriches the creditor, impoverishes the debtor, and paralyzes industry and enterprise.

Resolved, That the present financial system of the United States, which increases or diminishes the circulating medium at the pleasure of the manipulators of the National bank, without regard to the increase of population or the wants of the people, and which recognizes gold alone as the standard of value, and places in the hands of the Treasury Department all the revenue of the Government to speculate with in bonds and loan to National banks without interest, is subversive of the rights of the people, oppressive, unjust, and should be repudiated.

Resolved, That a financial policy whereby both gold and silver shall form the basis of circulation, whether the money used by the people be coin, or in certificates redeemable in coin, or both, as convenience may require, is imperatively demanded.

Resolved, That the attempt to substitute National bank notes, costing the Government millions of dollars annually, for free silver, costing nothing, is an outrage upon the people; that the money ring or trust, which has usurped the sovereign power of the Government to issue money, and which has fraudulently demonetized silver and seized the revenues of the Government for private speculation, shocks the moral sense of the people and destroys respect for Government and law. We demand that this ring or trust be destroyed and equal rights restored to all people.

Resolved, That we charge that President Cleveland is the willing tool or agent of a powerful money ring which fattens the subsidies of the Government, makes war on silver, issues its paper currency at the expense of the Government, borrows the revenues raised by taxation, and uses them without the payment of interest, contracts the currency to enhance the value of bonds, and enriches the usurers while it depresses the price of labor and property.

Resolved, That we favor the nomination of no man for President who is personally interested in National banks or the bonded indebtedness of the United States, but we demand a candidate who is to be just to all the people of the country—the poor as well as the rich.

Resolved, That the trickery of the President and his advisers, whereby they prevented a vote in the House of Representatives on the Beck silver amendment to the Bond purchasing bill, equals the villainy of the secret and fraudulent demonetization of silver in 1873.

Resolved, That we are in favor of the protection of home industry, and that the laborers of this country have a right to all the work required to supply the people of the United States, and that we are in favor of high wages in this country, and to that end will protect the wage-workers competition with the cheap labor of other lands.

Resolved, That the policy of the Government should be inaugurated and established by the people through their representatives in both Houses of Congress, and not by the President or the money trust, of which he, either as agent or head, is most active in defending.

Resolved, That we charge President Cleveland with violating every promise he made in favor of the service of the people, in his failure to support the improvement of rivers and harbors, with using the power of the Administration to prevent appropriations for navy and coast defenses, with attempting to destroy the protective tariff, with courting the good will of other nations at the expense of the citizens of the United States, and with joining the foreign bondholders to demonetize silver and destroy the industries of our country, and for the reduction of wages of the mine employees at Carson City, and for failing to support the government building at Carson as required.

We are in favor of the absolute exclusion of Chinese, and the restriction of immigration by which the present overcharged condition of the labor market is made worse, and also favor legislation by which a revision of our naturalization and land laws may be accomplished.

We demand, in behalf of our various industries, the retention of the duties on lead, borax, soda, hides and leather, and to restore the tariff of 1897 on wool.

Resolved, That we recognize the right of labor to organize for the lawful protection.

Resolved, That we favor the submission by the Legislature to the people of an amendment to the Constitution giving the Legislature the power to regulate the liquor traffic.

We favor liberal appropriations by Congress for hydrographical and topographical surveys of the State to the end that the water works may be preserved for the purpose of irrigation.

We endorse the wise and conservative administration of Governor O. C. Stevenson, and we heartily commend the able efforts of Senators Stewart and Jones and Representative Wood, burn in behalf of the interests of the people of this State.

We favor the granting to Nevada of all Government land within the State for the purpose of providing means for irrigation and other improvements.

We favor the reduction of the Treasury surplus by the payment of pensions to Union soldiers, their widows and orphans, the improvement of rivers and harbors, the building of defenses for our sea-coasts, the erection of public buildings, the creation of a navy, the purchase of bonds and the repeal of the internal revenue laws taxing tobacco.

It is the duty of the State to maintain free non-sectarian schools in the rural and sparsely settled districts as well as in towns and thickly settled sections, and that such a division of the school money should be made as will furnish the means of education to all children in the State.

We are in favor of re-opening the Carson Mint for coinage, and stating the wages of the employees to the standard paid by the last Republican Administration.

We demand the restoration of the mail service in this State to the efficiency maintained by the last Republican Administration, and favor the payment of fair wages to all postal employees.

PLATFORM

The Republicans of Washoe, proud of the past and hopeful for the future, heartily endorse the platform and nominees of the National Republican Convention, as adopted at Chicago, and the Republican State Convention at Winnemucca, and pledge a rousing majority for Harrison and Morton and protect us, and Murphy and Bartine and the ticket nominated by this Convention. We demand legislation from both Government and State in regard to irrigation, and for the improvement of our natural water ways, as well as for the storage of water, whereby the natural advantages of this section can be improved to their fullest capacity. We demand the most rigid economy in State and County affairs, and the establishment of the State's expenses upon such a basis as will secure good government at the lowest rate of taxation. We insist that a rate of seventy-five cents should be and is sufficient to provide revenue for the State Government.

In view of the rejection of the new Chinese treaty by the Monarchical Government we demand the total and absolute exclusion of all Chinese, and they must go.
